

BOILERSUIT

340GSM COTTON PROBAN STYLE: 118

A classic industry standard flame retardant boilersuit. Manufactured in the well established, 100% flame retardant cotton Proban fabric. A traditional engineers boilersuit designed and manufactured to meet the needs of general welding and allied processes.

Description:

- Seven concealed front stud fastenings allowing the garment to be fastened to the neck for added protection.
- One breast pocket with flap (1cm wider than the pocket) to prevent ingress from welding splatter.
- Two side swing pockets with access.
- One rule pocket positioned on the right leg.
- Bartacks at stress points for extra strength.
- Available in both regular & tall fit.
- Stocked size range - 92 to 140cm. Navy in 4cms increments, all other colours in 8cm increments.

Fabric:

340gsm, 100% Cotton Flame Retardant.
